Person profile

This service provides support for males aged 45 and older with mild learning disabilities and autism. This type of service would suit those who are very independent with low support needs.

Avenues believes everyone should enjoy a full life and play an active part in their support. All our packages recognise the distinct needs, ambitions, likes and dislikes of each person.

Our support

At this service we offer twenty-four hour support staff, including sleep-in and night staff. We also provide one-to-one hours as per the assessed needs of the individual. These focus on upskilling daily living tasks, maintaining their tenancy, accessing the community and work, and becoming more independent.
